

```
interface NetbankingService {  
    double getBalance(String accountNo);  
    Account getAccountDetails(String accountNo);  
}
```

```
class NetbankingServiceImpl implements  
NetbankingService {  
    public double getBalance(String  
accountNo) {  
        return 1000;  
    }  
}
```
